

Title: Polarisers

Material / Specification: HN 22 Visible Grade / 32%

Range / Description: POL-HN 32

Tel: +44 (0) 1622 859444
Fax: +44 (0) 1622 859555

Single: Transmittance for a single film

Parallel: Transmittance for a double film, axes parallel

Crossed: Transmittance for a double film, axes crossed

Vikuiti® Polarizer: HN32

Type: Neutral linear polarizer

Features: Represents the best balance between transmission and extinction for general use. Extinction transmission is about 0.005%.

Typical applications: Variable density filter systems, photoelastic stress analysis and other applications where light modulation is necessary.
