

## Linear Sheet Polariser

**Material / Specification:** HN42HE - Visible grade/ 42% transmission  
**Range / Description:** POL-HN42HE

**Single:** Transmittance for a single film.  
**Parallel:** Transmittance for a double film, axis parallel  
**Crossed:** Transmittance for a double film, axis crossed

**Polariser:** HN42E  
**Type:** Neutral linear polariser.  
**Features:** Very high efficiency linear polariser, both maximum and minimum transmittance show low colour saturation.  
**Typical Applications:** Recommended for applications requiring high transmission and high dynamic range.
