

## Linear Sheet Polariser

**Material / Specification:** HN7 - Infrared grade for 800-860nm  
**Range / Description:** POL-HN7

Single: Transmittance for a single film.  
 Parallel: Transmittance for a double film, axis parallel  
 Crossed: Transmittance for a double film, axis crossed  
 Vikuiti 3M Polariser: HN7  
 Material Availability: C.A.B

**Polariser:** HN7  
**Type:** Dark Green linear polariser.  
**Features:** Linear polariser for very near infrared 700 - 900nm.  
**Typical Applications:** Heat sensors or minimal visibility security systems employing detectors.
